

CURRICULUM VITAE

PROFILE

Aspiring expert in climate change. I am moved by the desire to produce concrete action on the environment and society. Two of my greatest motivations as a person are curiosity, which has allowed me to look into various areas in my life, experimenting and acquiring transversal knowledge and the contribution, which is expressed through environmental help and which is reflected a lot in my path of studies and life.

WORKING EXPERIENCES

03/2024-**Internship**
08/2024 **Hot or Cool Institute**

Company (think tank) located in Berlin (DE) that explores the intersections between society and sustainability. Internship carried out during PhD period to develop further application and methodologies for my research.

11/2022-**PhD STAGP- University of Siena**
today **Ecodynamics Group**

Research on the quantitative GHG emissions generated from lifestyles. Carrying out environmental/sustainability calculations, data analysis and writing papers. Collaborating in a EuroMed project on decarbonization of mediterranean islands called "CO2 PACMAN".

01/2022-**Internship**
04/2022 **Hot or Cool Institute**

Company (think tank) located in Berlin (DE) that explores the intersections between society and sustainability. Internship carried out within the Erasmus Traineeship program with post-graduate mobility. Carrying out environmental calculations, data analysis, writing papers and organizing workshops. Following two projects, one from Horizon 2020.

02/2021-**Project Manager**
10/2021 **Marcovaldo's Garden**

Creator and manager of the Marcovaldo Garden project, for the "Change for Planet" association. Practical project on the territory of a social-urban garden, correlated by training and information days about the reality of the sustainable garden.

09/2020-**Secretary and Member of the Board of Directors**
today **Change For Planet, Milan/Florence**

Change for Planet is an association of young people that actively deals with the international debate on issues relating to climate change and the various aspects of sustainable development. On the concrete, all this is expressed through projects to raise awareness of the population and practical action in the area. From 08/2023 I'm just member of Board of Directors.

06/2019-**Waiter**
12/2021 **Osteria Nuova**

Job carried out during my master's studies. Welcome and customer service. Time management in the dining room and kitchen.
