Before choosing the exemption, please check the link <https://unige.it/studenti/telemaco> what are the only valid exemptions. In particular, the exemption for passage is possible only if you come from a course of study at the University of Genoa and only if it is a course that appears as "similar" in the Table published at the bottom of this page. The only early test that entitles you to exemption is the GLUE5 test organized in July 2020 by the University of Genoa.

Before choosing the exemption and the mastery of credit requirements for master degrees, please check the **Didactic Regulations of the Course of Study** for admission requirements and preliminary test.
