

*Descrizione
dell'azienda/
Perché lavorare con
Noi?*

MERMEC has been known as a reliable and pioneering developer of high-tech solutions to the railway and steel industries for over 30 years. With an innovation-driven culture, we distinguish ourselves by our capacity to develop in house all software and equipment that make the core of our solutions. This major competitive advantage sets ourselves apart from other vendors and takes our products and services to the next level. Faster networks, smart buildings and reliable infrastructure are the key characteristics of an advanced railway transportation infrastructure. In this dynamic context, **MERMEC STE** plays the role of “enabler” by providing advanced technology and integrated services to manage the complexities of the railways of today and tomorrow
