BIOENGINEERING AND ROBOTICS.....	2
BIOTECHNOLOGIES IN TRANSLATIONAL MEDICINE	6
CIVIL, CHEMICAL AND ENVIRONMENTAL ENGINEERING	7
LAW	12
ECONOMICS AND QUANTITATIVE METHODS	13
HAEMATO-ONCOLOGY AND CLINICAL-TRANSLATIONAL INTERNAL MEDICINE	15
PHYSICS AND NANOSCIENCES	16
COMPUTER SCIENCE AND SYSTEMS ENGINEERING.....	18
ENGINEERING OF MODELS, MACHINE AND SYSTEMS FOR ENERGY, ENVIRONMENT AND TRANSPORT	20
MECHANICAL, ENERGY AND MANAGEMENT ENGINEERING.....	21
MATHEMATICS AND APPLICATIONS.....	22
EXPERIMENTAL MEDICINE	24
NEUROSCIENCE	25
ROBOTICS AND INTELLIGENT MACHINES – Italian national doctorate	29
MARINE SCIENCES AND TECHNOLOGIES.....	42
SCIENCES AND TECHNOLOGIES OF CHEMISTRY AND MATERIALS	45
SCIENCE AND TECHNOLOGY FOR ELECTRICAL ENGINEERING, COMPLEX SYSTEMS FOR MOBILITY	49
SCIENCE AND TECHNOLOGY FOR ELECTRONIC AND TELECOMMUNICATION ENGINEERING	53
SECURITY, RISK AND VULNERABILITY	54
HISTORY, ART HISTORY AND ARCHEOLOGY	58
STRATEGIC ENGINEERING AND DECISION METHODS	61
EUROPEAN STUDIES – Italian national doctorate.....	62

Course: BIOENGINEERING AND ROBOTICS

In agreement with the Foundation of the Italian Institute of Technology (Fondazione Istituto Italiano di Tecnologia – IIT)

Curriculum: BIOENGINEERING (CODE 10137)

Course Coordinator: Massobrio Paolo	
Department of Informatics, Bioengineering, Robotics and Systems Engineering (Dipartimento di Informatica, Bioingegneria, Robotica e Ingegneria dei Sistemi – DIBRIS)	
Places: 7 (°) – Grants: 5 (*)	
<p>(*) 1 grant funded by Università degli Studi di Genova, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00</p> <p>(*) 2 grants funded by The Italian Institute of Technology (IIT), the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00</p> <p>(*) 1 grant funded by Università degli Studi di Cagliari. Grant: EU project 101135183 MYRTUS "Multi-layer 360° dYnamic orchestrion and interopeRable design environmenT for compute-continUum Systems" CALL-topic: HORIZON-CL4-2023-DATA-01-04 - Cognitive Computing Continuum: Intelligence and automation for more efficient data processing (AI, data and robotics partnership) (RIA), CUP:F23C23000680006. The annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00</p> <p>(*) 1 grant funded within PNRR MNESYS project (PE00000006) - A Multiscale integrated approach to the study of the nervous system in health and disease (DD. 1553 11.10.2022) CUP: D33C22001340002; the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500</p> <p>(°) 1 place reserved for employees of Fondazione Don Carlo Gnocchi</p> <p>(°) 1 place reserved for employees of FISM</p>	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS
Further information on how to present qualifications/publications	<p>Candidates must submit:</p> <ul style="list-style-type: none"> - the complete list of all the exams sat during their Bachelor's and Master's degree and/or equivalents (BS, Master) specifying the average of marks or equivalent indicator. - the specific research themes candidates want to be evaluated on (see the list of research themes listed below and on the doctorate website: https://biorob.phd.unige.it/how-to-apply); - a project proposal related to one (or more) of the research themes offered (please use the template available at the website: https://biorob.phd.unige.it/how-to-apply); - a curriculum vitae et studiorum including all the technical scientific studies/activities already done and pertinent to the doctoral programme; - endorsement letters (maximum 3) from university professors or recognized experts in the field supporting the candidate. - the Candidate Summary Profile form available at https://biorob.phd.unige.it/how-to-apply.
Research Themes	<ul style="list-style-type: none"> - 3D <i>in vitro</i> model of Parkinson's disease (UNIGE) - A computational analysis of early vision function in silico networks of LIF neurons (UNIGE) - Visual feedback perturbations and collaborative tasks with haptic feedback for innovative neurorehabilitation based on virtual reality (UNICA) - 3D printed <i>in vitro</i> model of cortical brain-like tissue (MNESYS) - Development of a computational pipeline to design RNA aptamers (IIT) - Development of novel user experience metrics to evaluate lower and upper limbs exoskeletons for rehabilitation (IIT) - Activity of Daily Living in Multiple Sclerosis: A Technological Assessment (FISM) - Robotic rehabilitation in severe acquired brain injuries: a tailored multidimensional approach (Fondazione don Gnocchi) <p>The detailed description of the research themes can be found at the following link: https://biorob.phd.unige.it/how-to-apply</p>
Information on references	<p>Candidates must choose not less than one and not more than three referees to endorse their candidature. The referees must be university professors or recognized experts in the field, and must send the reference letters (specifying their name, role and affiliation), within the deadline of the public notice, to the Coordinator of the Doctoral Course at the following address: phd.biorob@dibris.unige.it.</p>
Foreign Languages	English
Further Information	<ul style="list-style-type: none"> - The detailed description of the research themes can be found at the following links: https://biorob.phd.unige.it/how-to-apply - The template for the research project can be found at the following link: https://biorob.phd.unige.it/how-to-apply - The candidate summary profile form can be found at the following link: https://biorob.phd.unige.it/how-to-apply

Course: BIOTECHNOLOGIES IN TRANSLATIONAL MEDICINE**Curriculum: REGENERATIVE MEDICINE AND TISSUE ENGINEERING (CODE 10140)**

Course Coordinator: Malatesta Paolo	
Department of Experimental Medicine (Dipartimento di Medicina Sperimentale – DIMES)	
Places: 1 – Grants: 1 (*)	
(*) 1 grant funded by Università degli Studi di Genova, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00.	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Further information on how to present qualifications/publications	All candidates are asked to submit a research project proposal (max 2 A4 sheets, font size 12) together with the qualifications. The project will be evaluated by the commission together with the qualifications and discussed during the oral interview.
Exam Syllabus	Interview on the titles and on the research project presented.
Research Themes	Tissue Engineering; Development/utilization of biocompatible, biodegradable materials capable of integrating and releasing molecules and cells).
Information on references	No letters of reference are required. Any reference letters received in any case will not be taken into consideration for scoring purposes.
Foreign Languages	English
Further Information	Coordinator: Prof. Paolo Malatesta - Department of Experimental Medicine - Tel. 0105558403 - paolo.malatesta@unige.it Contact person (to whom to request scientific information): Prof. Sara Tavella - Department of Experimental Medicine - Tel. 0105558241 – sara.tavella@unige.it Organizing Secretariat (to request technical information): Mr. Enrico Zeraschi - Department of Experimental Medicine - Tel. 0105558266 - enrico.zeraschi@unige.it

Course: CIVIL, CHEMICAL AND ENVIRONMENTAL ENGINEERING**Curriculum: CHEMICAL, MATERIALS AND PROCESS ENGINEERING (CODE 10141)**

Course Coordinator: Massabò Roberta	
Department of Civil, Chemical and Environmental Engineering (Dipartimento di Ingegneria Civile, Chimica e Ambientale – DICCA)	
Places: 1 – Grants: 1 (*)	
(*) 1 grant funded by ENEA, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Further information on how to present qualifications/publications	The application (curriculum vitae) must contain Transcripts of Records, stating the courses attended and marks obtained throughout the candidate's university career (Bachelor and M.Sc. degrees; Laurea Triennale and Magistrale degrees). The transcripts of Records must be official documents released by the universities which awarded the degrees. Undergraduate candidates at the deadline of the public notice may submit further documentation, which they deem appropriate, in order to document their university career. The knowledge of foreign languages certified by an international certificate (TOEFL, CPE, CAE, FCE, etc.) attached to the cv would be an asset.
Exam Syllabus	The interview will be a detailed scientific discussion on the candidate's research project, Curriculum Vitae et Studiorum and qualifications/publications. The interview is also aimed at verifying that the candidate has adequate knowledge to deal with studies in the chosen curriculum.
Research Themes	The research themes are those of the curriculum in “Chemical, Materials and Process Engineering”; they are described in details on the course web page: http://dottorato.dicca.unige.it/eng/chmatpr/ . The research project (10 pages max) must be prepared on one of the Project Thematics listed in http://dottorato.dicca.unige.it/documents/PhD_projects2023_ICMP.pdf or in http://dottorato.dicca.unige.it/documents/PhD_industrial_projects2023_ICMP.pdf for projects with industry, under the general Thematic “Chemical, Materials and Process Engineering”. The project must be prepared under the guidance of the referent of the Project in the list above. The project must include the title of the Project (from the list above), the candidate's research interests and motivations, a short abstract, the State of the Art and relevant references, and the objectives of the research activity. Projects that are not submitted as requested might be penalized in the evaluation process.
Information on references	Candidates must choose at least one and no more than three referees to support their candidature. One of the referees must be the member of the curriculum committee (http://dottorato.dicca.unige.it/eng/info/staff/comitatochmatpr.html) with whom the research project has been agreed. The referees must be university professors or experts in the subject. The reference letter must be sent by the referee, within the deadline of the public notice and using their institutional e-mail address, to the doctoral secretariat at dottorato.dicca@unige.it . If the referee is not a university professor, he/she must also send the Curriculum Vitae and a list of publications. The name, status and current position of the referees chosen by the candidate must be stated in the application. Reference letters that are not presented as requested will not be taken into consideration.

Curriculum: PHILOSOPHY OF LAW AND HISTORY OF LEGAL CULTURE (CODE 10145)

Course Coordinator: Chiassoni Pierluigi	
Law Department (Dipartimento di Giurisprudenza – DDG)	
Positions: 1 – Grant: 1 (*)	
(*) 1 grant funded by the European Project “HABITAT”, Title EN “How European Big Cities and Legal Systems Trigger Urban Inequality: An Inquiry into Law and Economics”, Program “Horizon Europe”, Action ERC StG, G.A. no. 101076616, CUP: D33C22002160006	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS
Further information on how to present qualifications/publications	<p>From the CV and other documents enclosed the following data should result:</p> <p>a) University degree and the final note or qualification. b) Any other post-lauream degree (e.g., master’s degrees/LLM); c) Publications concerning one or more of the research topics of the present Curriculum, if any; d) Research experiences and research and educational activities, if any.</p> <p>Candidates must submit a research project (Maximum 5 pages, possibly Times New Roman 12, including the bibliographical references) on a research topic specified in the following box. The project must contain clear statement of the topic, goals, and stages of the research activity, along with essential bibliographical references. The research project must be written in English</p>
Research Themes	<p>These positions are funded by the European Project “HABITAT”, Title EN “How European Big Cities and Legal Systems Trigger Urban Inequality: An Inquiry into Law and Economics”, Program “Horizon Europe”, Action ERC StG, G.A. no. 101076616, CUP: D33C22002160006. The proposals must relate to the main research objectives of the HABITAT project. Thus, the proposals of the applicant must be devoted to the analysis of the main regulatory interventions in urban development, urban planning, property law, access to mortgages, financing and bonuses, real estate acquisition, credit score assessment, city network institutions, elements of urban governance, public law contracts, and procurement. The Italian system, the French system, the German system, and the English system will be the object of comparative study, with particular attention to the following cities: Milan, Paris, Berlin, and London. The method of analysis uses elements of law and economics and applied economics. The spectrum of the investigation covers the period 1980-2020: both legislative and jurisprudential changes will be studied, considering sociocultural and contextual background variables.</p>
Foreign Languages	English
Further Information	<p>During the three years of the Program (and preferably during the second year) PhD candidates shall spend at least a six-months period of research abroad, or at qualified international Academic and Research Centers, conducting research on the topic of their PhD dissertation.</p> <p>Referente del curriculum / Curriculum Coordinator: Prof. Pierluigi Chiassoni pierluigi.chiassoni@unige.it PI of the ERC STG Project: Dr. Alessio Sardo alessio.sardo@unige.it Referente amministrativo / Curriculum Officer: Mrs. Stefania Lavezzo dottorato.diritto@unige.it</p>

Department of Economics (Dipartimento di Economia – DIEC)	
Places: 2 – Grants: 2 (*)	
(*) 1 grant funded within PROGRAMMA REGIONALE FONDO SOCIALE EUROPEO+ 2021-2027 PRIORITÀ 2 - ISTRUZIONE E FORMAZIONE - ESO 4.6 (OS-f) in collaboration and with the contribution of FinPro Liguria Sr,l; the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.243. Research project: Development of an economic model of an economic area based on the SIBATER methodology	
(*) 1 grant funded within PROGRAMMA REGIONALE FONDO SOCIALE EUROPEO+ 2021-2027 PRIORITÀ 2 - ISTRUZIONE E FORMAZIONE - ESO 4.6 (OS-f) in collaboration and with the contribution of FinPro Liguria Srl; the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.243. Research project: Development of economic ecosystems for goods and services, towards a collaborative and circular economy.	
Comparative assessment procedure	<p>QUALIFICATIONS/PUBLICATIONS AND EXAM</p> <ul style="list-style-type: none"> • Assessment of qualifications/publications and the curriculum vitae et studiorum • Written test (research project) • Interview (in English) that includes the description of the candidate’s research area of interest, also on the basis of previous activities stated in his/her scientific professional curriculum
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca . The shortlist of candidates selected for the interview will be published on the Doctorate’s website https://eqm.phd.unige.it
Research Themes	<p>Research project for grant within PROGRAMMA REGIONALE FONDO SOCIALE EUROPEO+ 2021-2027 PRIORITÀ 2 - ISTRUZIONE E FORMAZIONE - ESO 4.6 (OS-f): Development of an economic model of an economic area based on the SIBATER methodology</p> <p>The general goal of this project is the definition of an innovative approach to local sustainable development that, through the transfer of knowledge among different players, is aimed at implementing the European strategies on climate change, food, soil, and biodiversity so as to enhance the processes of territorial development. The creation of Key Performance Indicators and their statistical properties will be one of the central aspect of the research.</p> <p>Research project for grant within PROGRAMMA REGIONALE FONDO SOCIALE EUROPEO+ 2021-2027 PRIORITÀ 2 - ISTRUZIONE E FORMAZIONE - ESO 4.6 (OS-f): Development of economic ecosystems for goods and services, towards a collaborative and circular economy</p> <p>Main goal is to define a socio-economic model to identify the needs (at firm and territorial level) for the ecological transition (food safety and sustainable agriculture, digital innovation). The final objective is the definition of market-based policies aimed at supporting the objective of the ecological transition. From the supply side it is necessary to identify incentive-compatible methods for technological transfer; from the consumer side it may be necessary to enhance the consumers’ ability to identify suitable products and sustainable lifestyles. The creation of Key Performance Indicators and their statistical properties will be one of the central aspect of the research.</p>

Course: HAEMATO-ONCOLOGY AND CLINICAL-TRANSLATIONAL INTERNAL MEDICINE**Curriculum: TRANSLATIONAL HAEMATOLOGY (CODE 10147)**

Course Coordinator: Nencioni Alessio	
Department of Internal Medicine and Medical Specialities (Dipartimento di Medicina interna e Specialità mediche – DIMI)	
Places: 1 – Grants: 1 (*)	
(*) 1 grant funded by Università degli Studi di Genova, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Exam Syllabus	<p>During the on-line interview, the candidate will be evaluated with respect to the following criteria:</p> <ul style="list-style-type: none"> -Knowledge of the topics to be covered (see Research Themes) -Motivation -Logical thinking -Overall vision -Aptitude to carry out an independent project -Potential for excellence and leadership qualities -Capacity to work in team <p>Knowledge of the English language will be evaluated by a short reading and translation test.</p>
Research Themes	<ul style="list-style-type: none"> - Overview of main biological features observed in blood cancers: leukemia, lymphomas and multiple myeloma - Novel therapeutic approaches for the treatment of hematologic malignancies by use of precision-medicine strategies - The role of up-to date technologies single-cell-based for tumor heterogeneity investigations - Bioinformatics approaches to investigate hematologic malignancies - Role of plasma and platelet derivatives in tissue regeneration and their applications in onco-hematology
Information on references	<p>Applicants are required to indicate 1 to 3 supporters to their application. Those supporters will have to be University Professors or recognized experts in the field. Supporters will take care of sending their approval letters, within the term, to the Responsible of the PhD Course Prof. Alessio Nencioni, Dip. Di Medicina Interna DIMI, viale Benedetto XV n.6, (16132 Genova) e-mail: alessio.nencioni@unige.it, ricercadimi@unige.it, to Prof. Roberto Lemoli e-mail: roberto.lemoli@unige.it</p> <p>Within the application form, applicants will have to specify in detail name, surname and affiliation of the reference tutors.</p>
Foreign Languages	English
Further Information	<p>Reference professors:</p> <p>Roberto Lemoli e-mail: roberto.lemoli@unige.it</p> <p>Michele Cea e-mail: michele.cea@unige.it</p> <p>Maddalena Mastrogiacomo e-mail: Maddalena.Mastrogiacomo@unige.it</p>

Course: PHYSICS AND NANOSCIENCES

In agreement with the Foundation of the Italian Institute of Technology (Fondazione Istituto Italiano di Tecnologia – IIT) and National Institute for Nuclear Physics (Istituto Nazionale di Fisica Nucleare – INFN)

Curriculum: PHYSICS (CODE 10148)

Course Coordinator: Ferrando Riccardo	
Department of Physics (Dipartimento di Fisica – DIFI)	
Places: 4 – Grants: 4 (*)	
(*) 4 grants funded by IIT, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Further information on how to present qualifications/publications	Each candidate must submit a description of the research project he/she intends to carry out during the three years of the PhD course. The project must be written in English. A maximum length of 6000 characters including spaces is allowed.
Exam Syllabus	<ul style="list-style-type: none"> - Discussion about the qualification of the candidate. - Discussion of the Master's thesis. - Presentation and discussion of the proposed research project. - Interview on basic physics topics (general physics, modern physics). - Verification of knowledge of the English language.
Research Themes	<p>Research topics of the scholarships funded by IIT:</p> <ul style="list-style-type: none"> • 2 fellowships on the theme “Study and realization of 3-dimensional transistors based on 1D and 2D materials” The proposed activity concerns the modelling of nano-devices based on CNT-FETs and potential 2D materials-FETs; the study of the device performances; the realization of 1D and 2D materials-FETs systems by means of biofabrication and nanofabrication; the basic experimental tests of these devices. The project has broad implications in the world of physics, biotechnology and nanoelectronics. In particular, they could lead to revolutionary applications in fields such as nanofabrication, computing, nanodevices. This project will require the use of the following methods and techniques: Modelling; Nanofabrication and Nanocharacterization Contacts: Remo Proietti Remo.Proietti@iit.it and Denis Garoli Denis.Garoli@iit.it • 1 fellowship on the theme “Novel tools for human brain investigations: from hybrid brain interfaces to RNA/protein dynamics”. The project aims to develop a wide class of multi-functional sensors across the fields of nano-photonics, nano-electronics, and biophysics. By interfacing these nanostructured sensors with living human neurons we want to make an effective Hybrid Brain-Sensors interface. In addition, advanced optical and electrical nano-sensing at single molecule level will be developed so to provide novel tools in RNA/Protein investigations of brain functions. Contact: Francesco De Angelis - francesco.deangelis@iit.it and Giovanna D’Aste - giovanna.daste@iit.it • 1 fellowship on the theme “Control and modification of the exciton properties of semiconductor nanocrystals by light-matter hybridization”. The candidate will work on the design and optimization of new nanophotonic devices based on the integration between semiconductor nanocrystals and plasmonic metasurfaces. The activity will also concern the investigation of the photophysical processes that regulate the dynamics of the system under strong light-matter coupling. Contact: Andrea Toma - andrea.toma@iit.it
Information on references	Candidates must choose up to three referees to support their application. These contacts must be university professors or experts in the field. It is preferable that at least one contact belongs to the University of Genoa or to the affiliated research bodies (CNR/INFN/IIT). The referents will be responsible for sending the reference letters, preferably written in English, within the deadline of the call. The letters must be addressed to the attention of the course coordinator Prof. Riccardo Ferrando to the e-mail address: phd@fisica.unige.it .

	The subject of the e-mail must be: PHD REFERENCE LETTER – PHYSICS.
Foreign Languages	Excellent knowledge of both spoken and written English. A very basic knowledge of Italian is desirable.

Course: COMPUTER SCIENCE AND SYSTEMS ENGINEERING**Curriculum: COMPUTER SCIENCE (CODICE 10149)**

Course Coordinator: Delzanno Giorgio	
Department of Informatics, Bioengineering, Robotics and Systems Engineering (Dipartimento di Informatica, Bioingegneria, Robotica e Ingegneria dei Sistemi – DIBRIS)	
Places: 1 - Grants: 1 (*)	
(*) 1 grant funded by Department (DIFI) within the project “Multi-modal learning for gait-based human analysis and authentication” Award Number: FA8655-23-1-7074, funded by Air Force Office of Scientific Research (AFOSR). The annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00.	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Further information on how to present qualifications and publications	Curriculum vitae: candidates must present a curriculum vitae with clear indications on the qualifications acquired with relative grades, research experience, publications, awards and work experience. Research project: candidates must submit a research project with clear indication of the following information: research theme or macro-theme (see specific section of this notice); reference DIBRIS research group and company that cofinances the position. Instructions and suggestions for the submission of the research proposal are available at the URL https://csse.phd.unige.it/admission
Exam Syllabus	The comparative procedure consists of - an assessment of the candidate qualifications - an interview to verify background and knowledge of the candidate as well as motivations and goals of the research proposal submitted with the application.
Research Themes	The specific research is “Multi-modal learning for human motion analysis and authentication” within an Air Force Office of Scientific Research (AFOSR) research project, reference Prof. Nicoletta Noceti For more details (abstracts/contacts), refer to the URL: https://csse.phd.unige.it/admission
Information on references	Candidates must choose no less than one and no more than three contact persons to support their candidacy. These referents must be university professors or experts in the field. It will be the referents' responsibility to send the reference letters, within the deadline of the call, to the attention of the Coordinator of the PhD course at the e-mail address: phd.compsci@dibris.unige.it . In the application for admission, candidates must indicate the name, qualification and place of employment of the contact persons chosen by them. The reference letter template is available at the URL: https://csse.phd.unige.it/admission

Other Information	Curriculum coordinator Prof.ssa Simona Sacone

Course: ENGINEERING OF MODELS, MACHINE AND SYSTEMS FOR ENERGY, ENVIRONMENT AND TRANSPORT

Curriculum: MATHEMATICAL ENGINEERING AND SIMULATION (CODE 10151)

Course Coordinator: Daniele Simoni	
Department of Mechanical, Energetics, Management and Transport Engineering (Dipartimento di Ingegneria Meccanica, Energetica, Gestionale e dei Trasporti – DIME)	
Places: 3 – Grants: 3 (*)	
(*) 2 grants funded by Università degli Studi di Genova, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00 (*) 1 grant funded by Department (DIME), on the topic Advances in Strategic Engineering based on the combined use of Data Analytics, Modeling & Simulation, Artificial Intelligence in closed loop with reality applied to Decision Making. The annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS
Research Themes	The following research topics are proposed within the curriculum: 1. Continuous and discrete mathematical models for the thermo-fluid dynamics of energy systems; fluid mechanics and related equations. Problems of acoustics and wave propagation in fluid and solid media using "analogous instruments". Metamaterials. The Dirac field in interaction. 2. Methods of development and analysis of discrete and continuous models for the simulation of systems. Numerical analysis tools and problems; development of simulators and simulator federations for complex systems. Definition of objectives, formalization, implementation solutions, integration, verification, validation, testing, accreditation and execution of real-time, fast-time and slow time models. 3. Physical-mathematical models with finite or infinite degrees of freedom, interaction field theory. Extended theories of gravity. Geometric and analysis techniques. Diffusion problems and resolution techniques. Environmental problems of public safety for the fight against terrorism. 4. Mechanics of solids. Numerical and control techniques. 5. Development of aggregate and operational programming systems, realized through finite capacity tools, with discrete event simulation techniques. Optimal state estimation for linear and nonlinear systems. 6. Development and application of artificial intelligence techniques. Supporting geometric methodologies for the development of simulators in virtual reality environments. Simulation applied to the logistics and transport sector for supply chain management for decision support. 7. Simulation applied to the military, tactical and strategic sector.
Information on references	In the admission application, candidates must indicate the name, qualification and place of employment of the contact persons chosen by them.
Foreign Languages	English

Course: MECHANICAL, ENERGY AND MANAGEMENT ENGINEERING**Curriculum: MECHANICS, MEASUREMENTS AND MATERIALS (CODE 10152)**

Course Coordinator: Berselli Giovanni	
Department of Mechanical, Energetics, Management and Transport Engineering (Dipartimento di Ingegneria Meccanica, Energetica, Gestionale e dei Trasporti – DIME)	
Places: 3 – Grants: 3 (*)	
(*) 2 grants funded by Università degli Studi di Genova, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00	
(*) 1 grant cofunded by MUR/DIME, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Further information on how to present qualifications/publications	The qualifications/publications must contain a detailed explanation and the development plan of how to present a possible research project, quoting the Robotics and Mechatronics (RM) syllabus, and the field qualifications/publications it refers to, in order to evaluate the candidate's ability to organize and carry out research. If admitted to the doctoral course, the candidate will generally carry out his/her activity within the syllabus chosen for his/her project, but not necessarily on the specific activities described and planned in the actual project.
Exam Syllabus	The interview will focus on the discussion of the project, the qualifications presented by the candidate and on all the specific themes bound to the Mechanics, Measurements And Materials curriculum (MMM).
Research Themes	The Mechanics, Measurements and Materials (MMM) syllabus focuses on research themestypical of the Macrosectors it refers to. In particular the research themes suggested concern the functional and constructive design sector, CAD, CAE, PLM, PDM, additive manufacturing (polymer-based metals and composites (machine and material methods in combination), the mechanic behaviour of materials, materials and implants for medical, industrial and marin applications, calculus modelling and applications of composite components also for orthotics and biomedical applications, environmental compatibility and recycling, mechanical and mechatronic systems, motor vehicles, railway vehicles, airplanes, mechanical automation, working, raising and transport systems, lubrication, vibrations and noise, sound quality, experimental methods, diagnostics and qualifying of machines and components, monitoring and maintenance, reliability, reverse logistics. Mechatronics Design and Control of Energy Efficient Leg (research theme grant funded within D.M. 117 cofunded by Leonardo Spa) Development robotic devices fo upper limb rehabilitation (research themes for places reserved to employees of Rewing Srl
Information on references	Candidates must choose not less than one and not more than three referees to support their candidature. These referees must be university professors or experts in the subject and it will be their concern to send reference letters, within the deadline of the public notice, to the Coordinator Prof. Giovanni Berselli, at giovanni.berselli@unige.it . The name, status and service place of the referees chosen by the candidates must be stated in their applications.
Foreign Languages	English
Further Information	Coordinator of the PhD IMEG course and contact person for the MMM curriculum: Prof. Giovanni Berselli DIME/MEC via all'Opera Pia 15/A 16145 Genova (+39) 0103352839 giovanni.berselli@unige.it

Course: MATHEMATICS AND APPLICATIONS

Curriculum: MATHEMATICAL METHODS FOR DATA ANALYSIS (CODE 10153)

Course Coordinator: Vigni Stefano	
Department of Mathematics (Dipartimento di Matematica – DIMA)	
Places: 2 Grants: 2 (*)	
(*) 1 grant funded by CNR-IMATI; the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00 (*) 1 grant funded by Department (DIMA) within the ERC project “Efficient algorithms for sustainable machine learning”; the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview:	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Further information on how to present qualifications/publications	Besides the documentation listed in art. 3 of the public notice, candidates must present: - if available, their 5-year degree thesis (to be uploaded online). Furthermore:- their three-year degree and five-year degree marks should be indicated in their curriculum; - a research project (2 pages max.) which describes the research theme they intend to work on during the Doctoral Course.
Exam syllabus	The comparative assessment procedure consists in the assessment of qualifications/publications and in interview on the research project presented by the candidate.
Research themes	Research theme (CNR-IMATI project) - Methods and models for the semantic and multi-scale representation of complex urban environments. <i>Abstract</i> - The research program aims to develop the formal and computational aspects necessary to define the operations that in cartography support the process known as <i>cartographic generalization</i> : these operations are thought to be applied to point clouds and geometric models that represent the urban physical reality acquired by remote sensing. The thesis is highly innovative and the program requires: (1) the study of methods for the geometric representation of shapes (surfaces, volumes, linear elements) through different representation schemes (polyhedral tessellations, surfaces or continuous curves) aimed at defining a new representation scheme capable of managing dimensionally heterogeneous elements; (2) definition and development of operators capable of automatically converting the representation of the urban context elements into different scale levels, where by scale we mean both as a descriptive/semantic scale (what is the meaning/nature of the real elements represented) and geometric (how detailed the digital representation must be). The program will be carried out in collaboration with several research projects, first of all, the CNR-DIITET Urban Intelligence Strategic Project, in which CNR-IMATI participates with a scientific leadership role regarding the mathematical modelling of 3D urban environments. Research theme (ERC project) - Efficient Machine Learning for operators. <i>Abstract</i> - While traditional machine learning primarily focuses on estimating scalar-valued functions from data, there is a growing interest in developing methods to learn more complex quantities, such as operators between Hilbert and Banach spaces. These operators play a central role when data are generated according to governing equations, particularly in the context of partial differential equations. In this project, our goal is to develop techniques that are efficient in terms of both data and computations, while also being supported by rigorous theoretical guarantees.
Information on references	Candidates must choose not less than one and not more than three referees to support their candidature. These referees must be university professors or experts in the subject and it will be their concern to send reference letters, within the deadline of the public notice, to the Coordinator of the Doctoral Course at the following address: Prof. Stefano Vigni Dipartimento di Matematica, Università di Genova Via Dodecaneso 35 16146 Genova or, alternatively, to the e-mail address: vigni@dim.unige.it The name, status and service place of the referees chosen by the candidates must be stated in their applications.

(*) 1 grant funded within PROGRAMMA REGIONALE FONDO SOCIALE EUROPEO+ 2021-2027 PRIORITÀ 2 - ISTRUZIONE E FORMAZIONE - ESO 4.6 (OS-f) in collaboration and with the contribution of E.M.A.C. – ELETTRONICA MEDICALE ED ATTREZZATURE CHIMICOCLINICHE S.R.L.; the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.243. Research project: Development, validation and clinical implementation of a hand strength rehabilitation tool and its integration into a robotic rehabilitation system.	
Comparative assessment procedure	<p>QUALIFICATIONS/PUBLICATIONS AND EXAM</p> <ul style="list-style-type: none"> • Assessment of qualifications/publications and the curriculum vitae et studiorum • Written test (research project) • Interview that includes the description of the candidate's research area of interest, also on the basis of previous activities stated in his/her scientific professional curriculum
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Further information on how to present qualifications/publications	Evaluation of qualifications will concern: <ol style="list-style-type: none"> 1. Graduation marks of the second cycle (Master's) degree 2. Curriculum Vitae (included graduation thesis in pdf format) 3. Research experience at universities or research centers 4. Scientific publications 5. Research program submitted by the applicant
Exam Syllabus	The oral examination will be divided into two parts: 1) a scientific interview on the research topics of this PhD program, and on the applicant's research project, that will be evaluated on the basis of project contents, design, feasibility, and relevance for research topics related to this notice of competition; and 2) a motivational interview.
Research Themes	The main research topic concerns: Development, validation and clinical implementation of a hand strength rehabilitation tool and its integration into a robotic rehabilitation system
Information on references	Applicants must submit from one to three letters of referees to support their application, which have to be sent to: Prof. Piero Ruggeri, e-mail: ruggeri@unige.it Tel.:+39 010-3538185 and to: Dott.ssa Maria Paola Fenu e-mail: mpfenu@unige.it
Foreign Languages	English
Further Information	<p>Dott.ssa Maria Paola Fenu e-mail: mpfenu@unige.it Prof. Piero Ruggeri, e-mail: ruggeri@unige.it</p> <p>The winners of the Liguria Region scholarships will carry out their activities on the Savona Campus, at the Rehlab laboratory and at the offices of the partner company (EMAC srl).</p> <p>Months to be spent abroad: 0</p>

Course: ROBOTICS AND INTELLIGENT MACHINES – Italian national doctorate

Dottorato di “interesse nazionale” in convenzione con Università di PISA, Università degli Studi di NAPOLI Federico II, Università degli Studi di SIENA, Università degli Studi di TRENTO, Università "Campus Bio-Medico" di ROMA, Politecnico di BARI, Politecnico di MILANO, Università degli Studi di MILANO-BICOCCA, Università della CALABRIA, Università degli Studi di FIRENZE, Università del SALENTO, Università degli Studi di UDINE, Università degli Studi di PADOVA, Libera Università di BOLZANO, Sapienza Università di ROMA, Università degli Studi della Campania "Luigi Vanvitelli", Università degli Studi di PALERMO, Politecnico di TORINO, Università Politecnica delle MARCHE, Università degli Studi di MODENA e REGGIO EMILIA, Università degli Studi di BOLOGNA, Istituto Italiano di Tecnologia (IIT), Consiglio Nazionale delle Ricerche (CNR) e Scuola Superiore Sant'Anna

Curriculum: HEALTHCARE AND WELLNESS OF PERSONS (CODE 10158)

Coordinator: Cannata Giorgio	
Department of Informatics, Bioengineering, Robotics and Systems Engineering (Dipartimento di Informatica, Bioingegneria, Robotica e Ingegneria dei Sistemi – DIBRIS)	
Places: 3 – Grants: 3 (*)	
(*) 2 grants funded by University of Genova, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500 <ul style="list-style-type: none"> ○ Research themes n, 1, 2 (*) 1 grant funded by proponents the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500 <ul style="list-style-type: none"> ○ Research theme n. 5 (Italian Institute of Technology Horizon Europe Programme project HARIA) 	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW <u>Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca</u> Candidates are ranked separately for each research theme they applied. Step 1 – Assessment of qualifications (maximum 60 points). Candidates are ranked on the basis (not in order or relevance) of their student career, Curriculum Vitae, motivation letter, qualified scientific and technical skills, endorsement letters. Candidates are admitted to Step 2 if their score is greater than or equal to 40 points. Step 2 – Oral examination (maximum 60 points). The Candidates are expected to discuss about their qualifications and scientific and technical skills, and to show their motivation and attitude for scientific research. Then they are interviewed on the research theme(s) they have applied for (see below) receiving a specific score for each interview. The oral examination for each research theme is passed if the score is greater than or equal to 40 points. The final score is the sum of the scores in Step 1 and Step 2 (for each research theme the candidate applied to).
Further information on how to present qualifications/publications	Candidates must : <ul style="list-style-type: none"> – submit the complete list of all the exams sat during their Bachelor’s and Master’s degree and/or equivalents (BS, Master) specifying the average marks (GPA or equivalent indicator); – specify up to three research themes of their interest (see the research themes listed below and at Admission – Drim – Irim (i-rim.it)); – submit a motivation letter (Research project) related to one (or more) of the research themes selected; use the template available at: Admission – Drim – Irim (i-rim.it) ; – submit a Curriculum Vitae including all the technical scientific studies/activities already done and pertinent to the doctoral program; – submit up to 3 recommendation letters from university professors or recognized experts in the field supporting the candidate;

Research Themes	<ol style="list-style-type: none"> 1. A “DIVERSITY-AWARE” PERSONAL ROBOT TRAINER WITH SOCIAL ACUITY TO HELP PEOPLE CHANGE UNHEALTHY HABITS – UNIVERSITY OF GENOVA 2. Course: ROBOTICS AND INTELLIGENT MACHINES – Italian national doctorate

Dottorato di “interesse nazionale” in convenzione con Università di PISA, Università degli Studi di NAPOLI Federico II, Università degli Studi di SIENA, Università degli Studi di TRENTO, Università "Campus Bio-Medico" di ROMA, Politecnico di BARI, Politecnico di MILANO, Università degli Studi di MILANO-BICOCCA, Università della CALABRIA, Università degli Studi di FIRENZE, Università del SALENTO, Università degli Studi di UDINE, Università degli Studi di PADOVA, Libera Università di BOLZANO, Sapienza Università di ROMA, Università degli Studi della Campania "Luigi Vanvitelli", Università degli Studi di PALERMO, Politecnico di TORINO, Università Politecnica delle MARCHE, Università degli Studi di MODENA e REGGIO EMILIA, Università degli Studi di BOLOGNA, Istituto Italiano di Tecnologia (IIT), Consiglio Nazionale delle Ricerche (CNR) e Scuola Superiore Sant'Anna

Curriculum: INSPECTION AND MAINTENANCE OF INFRASTRUCTURES (CODE 10163)

Coordinator: Cannata Giorgio	
Department of Informatics, Bioengineering, Robotics and Systems Engineering (Dipartimento di Informatica, Bioingegneria, Robotica e Ingegneria dei Sistemi – DIBRIS)	
Places: 1 – Grants: 1 (*)	
(*) 1 grant funded within PROGRAMMA REGIONALE FONDO SOCIALE EUROPEO+ 2021-2027 PRIORITÀ 2 - ISTRUZIONE E FORMAZIONE - ESO 4.6 (OS-f) in collaboration and with the contribution of JPDRONI S.p.A. ; the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.243. Research project: AUTONOMOUS MULTIROTOR AERIAL DRONES FOR THE INSPECTION OF INDUSTRIAL FACILITIES	
Comparative assessment procedure	<p>QUALIFICATIONS/PUBLICATIONS AND EXAM</p> <ul style="list-style-type: none"> • Assessment of qualifications/publications and the curriculum vitae et studiorum • Written test (research project) • Interview that includes the description of the candidate's research area of interest, also on the basis of previous activities stated in his/her scientific professional curriculum
Interview	<p><u>Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca</u></p> <p>Candidates are ranked separately for each research theme they applied.</p> <p>Step 1 – Assessment of qualifications (maximum 60 points). Candidates are ranked on the basis (not in order or relevance) of their student career, Curriculum Vitae, motivation letter, qualified scientific and technical skills, endorsement letters.</p> <p>Candidates are admitted to Step 2 if their score is greater than or equal to 40 points.</p> <p>Step 2 – Oral examination (maximum 60 points). The Candidates are expected to discuss about their qualifications and scientific and technical skills, and to show their motivation and attitude for scientific research. Then they are interviewed on the research theme(s) they have applied for (see below) receiving a specific score for each interview.</p> <p>The oral examination for each research theme is passed if the score is greater than or equal to 40 points.</p> <p>The final score is the sum of the scores in Step 1 and Step 2 (for each research theme the candidate applied to).</p>
Further information on how to present qualifications/publications	<p>Candidates must:</p> <ul style="list-style-type: none"> – submit the complete list of all the exams sat during their Bachelor's and Master's degree and/or equivalents (BS, Master) specifying the average marks (GPA or equivalent indicator); – specify up to three research themes of their interest (see the research themes listed below and at Admission – Drim – Irim (i-rim.it)); – submit a motivation letter (Research project) related to one (or more) of the research themes selected; use the template available at: Admission – Drim – Irim (i-rim.it) ; – submit a Curriculum Vitae including all the technical scientific studies/activities already done and pertinent to the doctoral program; – submit up to 3 recommendation letters from university professors or recognized experts in the field supporting the candidate;
Research Themes	Grant funded within PROGRAMMA REGIONALE FONDO SOCIALE EUROPEO+ 2021-

	<p>2027 PRIORITÀ 2 - ISTRUZIONE E FORMAZIONE - ESO 4.6 (OS-f)</p> <p>1. AUTONOMOUS MULTIROTOR AERIAL DRONES FOR THE INSPECTION OF INDUSTRIAL FACILITIES – JPDRONI S.P.A. AND UNIVERSITÀ DI GENOVA</p> <p>For a complete description of the research themes proposed check: Admission – Drim – Irim (i-rim.it)</p>
Information on references	<p>Candidates must choose no more than three recommenders to endorse their candidature. The recommenders must be university professors or recognized experts in the field, and must upload the recommendation letters (specifying their name, role and affiliation), within the deadline of the public notice, to: https://forms.gle/TT4UwLqrjf88Cban6</p>
Foreign Languages	<p>English</p>
Further Information	<p>For more information about</p> <ul style="list-style-type: none"> - the research themes please check the contact person indicated in the project themes description file available at: Admission – Drim – Irim (i-rim.it) - the doctorate rules and structure please check: RULES – Drim – Irim (i-rim.it) CURRICULA AND THEMES – Drim – Irim (i-rim.it) - for other enquiries contact the Doctorate Secretary: phd_drim@unige.it <p>A step-by-step guideline for the application is available here: Guide for the enrollment confirmation to the PhD courses (unige.it)</p> <p>Further information about commitments and conditions of the grants funded within PROGRAMMA REGIONALE FONDO SOCIALE EUROPEO+ 2021-2027 PRIORITÀ 2 - ISTRUZIONE E FORMAZIONE - ESO 4.6 (OS-f) are available in the Notice of competition (article 6, paragraph 6)</p> <p>Months to be spent abroad: 0</p>

Course: MARINE SCIENCES AND TECHNOLOGIES**Curriculum: NAVAL AND NAUTICAL DESIGN (CODE 10164)**

Course Coordinator: Ferrari Claudio	
Centro del Mare	
Places: 1 – Grants: 1 (*)	
(*) 1 grant funded by Università degli Studi di Genova, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Research Themes	<ul style="list-style-type: none">• Industrialization of the nautical product• Sustainability of the nautical product• Enhancement of the existing nautical heritage• Visual communication and the nautical product
Information on references	<p>Applicants should choose no fewer than one and no more than three referees to support the application. The referees must be university professors or experts in the subject. Referees shall directly send endorsement letters, within the deadline of the notice, to the following address e-mail: zignego@arch.unige.it and mariaelisabetta.ruggiero@unige.it</p> <p>In the application form, candidates must indicate the name, position and place of service of the references they have chosen.</p>

Department of Marine, Electrical, Electronic and Telecommunications Engineering (Dipartimento di Ingegneria Navale, Elettrica, Elettronica e delle Telecomunicazioni – DITEN)	
Places: 2 – Grants: 2	
(*) 1 grant funded by Università degli Studi di Genova, the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00. (*) 1 grant cofunded by MUR/Department (DITEN), the annual gross amount of the grant, including social security expenses to	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Further information on how to present qualifications/publications	Applicants will have to submit: 1) a research project up to 10 pages long; 2) an updated CV; 3) a short abstract of the master's thesis, if available. Candidates who have not yet graduated must present the list and the marks of the exams passed in the master's degree program up to the moment of submission of the application.
Exam Syllabus	Interview on the submitted research project, the PhD course topics, and the candidate's specific interests in the field. English language test.
Research Themes	(A) Automation: industry, process and transport. Manufacturing plants modeling. Management, monitoring and control of electrical systems. Innovative techniques and optimization for electromagnetic device design. Electric drives for robotics, manufacturing automation and processes. Advanced instrumentation and fieldbus applications. (B) Energy: Protection from electrostatic hazard. Insulation defects evaluation with partial discharge measurement. Technical-economic evaluations for the energy market. Distributed generation. Quality of service. Optimization algorithms, distribution management systems, load forecasts and renewable energy resources, with methods based on artificial intelligence, data mining, big data and probabilistic safety assessment. Switches, machines, electric actuators and magnetic devices for energy storage. Static energy converters. (C) Electronics: Modeling of power electronic systems and components. Advanced control techniques for converters. Electrostatic discharge protection systems for electronic devices. Complex systems modeling. Analysis and synthesis of circuits and nonlinear dynamic systems. Neural networks. Electronic systems design. (D) Electromagnetic compatibility among electrical, power electronic and communications systems. Modeling, simulation and measurement methods. Lightning current numerical modeling. Electromagnetic modeling with full Maxwell approach. (E) Transport: Modeling for RAMS predictive analysis. Electrified systems for public transport. Energy management of electric and hybrid vehicles. Electric traction motor diagnostics. Electric drives for rail traction, road and ship propulsion. (F) Environment: Numerical simulation and measurement and field reduction techniques. Optimized design of low emission devices. Low environmental impact systems.
Information on references	Candidates must choose not less than one and not more than three referees to support the application. These referees must be university professors or experts in the subject and it will be their concern to send reference letters, within the deadline of the public notice, to Prof. Andrea Formentini at the following address: andrea.formentini@unige.it The name, status and service place of the referees chosen by the candidates must be stated in their applications.

Places: 1 – Grants: 1 (*)	
(*) 1 grant funded within Security and Rights in the CyberSpace (SERICS) Partnership (PNRR MUR - M4C2 - Investment 1.3 - Notice "Partnerships Extended to Universities, Research Centers, Companies for Funding Basic Research Projects" - D.D. No. 341 of March 15, 2022) - CUP D33C22001300002, Spoke 4 (Security of Operating Systems and Virtualization), the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500.	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Further information on how to present qualifications/publications	<p>Candidates can choose up to a maximum of 2 research topics among those listed below and submit</p> <ul style="list-style-type: none"> • a research project, up to a maximum of 10 pages, which should highlight the candidate's motivations and research interests. The project should include a summary, a state of the art section completed with relevant publications, and the objectives of the activity; • a document from the university that awarded their degree (transcript of records), which shows the courses and grades obtained throughout their academic career (Bachelor and M.Sc.), specifying the GPA or equivalent indicator. Candidates who do not yet possess the degree required for admission to the doctoral program at the time of the deadline may submit additional documentation that they consider more appropriate to document their academic career; • a curriculum.
Exam Syllabus	The interview will be a detailed scientific discussion on the candidate's research project (10 pages max), Curriculum Vitae et Studiorum (10 pages max) and qualifications/publications (10 pages max). The interview is also aimed at verifying that the candidate has adequate knowledge to deal with studies in the chosen curriculum.
Research Themes	<ul style="list-style-type: none"> • Security of Operating Systems and Virtualization - Grant DIBRIS on Partenariato Esteso SERICS <p>Additional information about the research projects can be found on the webpage https://sicurezza.unige.net/admission/how-to-apply/themes-csrai-xxxix-october-2023</p>
Information on references	Candidates must choose no less than 2 and no more than 3 references in support of their application. These references must be university professors or subject matter experts. If the reference is not a university professor, a Curriculum Vitae and a list of publications from the reference are required. It is the responsibility of the references to send the reference letters to the Curriculum Coordinator at the following address: luca.oneto@unige.it , by the application deadline. In the admission application, candidates must provide the full name, position, and affiliation of the chosen references. Reference letters that are not submitted as requested will not be considered.

**Course: STRATEGIC ENGINEERING AND DECISION METHODS
(CODICE 10178)**

Course Coordinator: Sciomachen Anna Franca	
Department of Economics (Dipartimento di Economia – DIEC)	
Places: 1 – Grants: 1 (*)	
(*) 1 grant funded by Ascom Servizi Srl Unip (IM), the annual gross amount of the grant, including social security expenses to be paid by the recipient, is € 16.500,00	
Comparative assessment procedure	QUALIFICATIONS/PUBLICATIONS AND INTERVIEW
Interview	Date, hour and how the interview will be carried out will be posted within the deadline of the notice of competition on the web page https://unige.it/usg/it/dottorati-di-ricerca
Further information on how to present qualifications/publications	In the presentation of the curriculum vitae, it is important to highlight, as the following aspects will be used as evaluative parameters: publications (e.g., International Journals, International Conferences, Book Chapters), Master's Degree grade (or equivalent title), work experience and skills acquired. A research project proposal (other than the Master's thesis) must be attached and will be an integral part of the candidate's evaluation. In the research project it is important to highlight, as the following aspects will be used as evaluation parameters: Relevance to the research topics that appear in the call for papers, Originality, Method of execution, Feasibility, Clarity of exposition. The presentation of the research project, which should not exceed 5 pages, should identify the logical and methodological approach, research objectives and a preliminary state of the art.
Exam Syllabus	The interview will aim to verify the candidate's competence in relation to the listed research topics and the methodological ability to deal with research problems. In addition, the interview will also focus on the themes of the research project, inherent to the listed research themes, presented by the candidate.
Research Themes	The competences related to SEDEM encompass all those disciplines that can support decision makers and combine the rationality of quantitative methods with the qualitative understanding of decision making. The aptitude and interest in quantitative sciences applied to the use and development of algorithms and models, including artificial intelligence, useful for preparing decision support systems will therefore be tested. The skills required of students are therefore transversal and interdisciplinary since the fields of application of decision-making methods are many. Among these, of greatest interest for the PhD in SEDEM are: logistics and transport, management referring to different business contexts, green transition, safety and security, and public administration. Specifically, for the grant financed by Ascom Servizi Srl Unip, the research project will have to investigate issues relating to the planning and management of activities for business services. In particular, it is requested to develop research in the field of business economics, with an in-depth study of the main management and managerial areas, i.e.: budgeting and accounting principles, planning/programming and control, strategy, organisation, corporate finance, private and labour law. For more detailed information see the following web address: https://sedem.phd.unige.it/
Information on references	Candidates must choose not less than one and not more than three referees to support their candidature. The referees must be university professors or experts in the subject and it will be their concern to send reference letters, within the deadline of the public notice, to the Coordinator of the Doctoral Course at the following addresses: sciomach@economia.unige.it . The name, status and service place of the referees chosen by the candidates must be stated in their applications. The candidates' aptitude for scientific research must emerge from the contents of the reference letters.
Foreign Languages	English
Further Information	<ul style="list-style-type: none"> • More detailed information can be found at: https://sedem.phd.unige.it/ • For further information, please contact the coordinator at the following e-mail address: sciomach@economia.unige.it
