

## breve descrizione aziendale

Welcome to Canova Tech, headquartered in Italy, where precision and innovation converge in the art of integrated circuit design. Our expertise in crafting both analog and digital circuits sets global standards and empowers industry leaders worldwide. At Canova Tech, each project is approached with a unique blend of meticulous craftsmanship and advanced technology, inspired by the artistry of neoclassical sculptor Antonio Canova. Our medium is silicon, and our tools are cutting-edge, ensuring that every chip embodies system efficiency and architectural excellence.

## perché scegliere noi

Join us in exploring 'The Art of Silicon Sculpting.' Here, engineering transcends traditional boundaries, and each circuit is not just a component but a masterpiece, harmonizing the legacy of the past with the innovations of the future.

## corsi di studio di maggiore interesse

- ✓ Ingegneria Elettronica
- ✓ Fisica

## posizioni aperte e relativi percorsi di inserimento

IC Layout Design Engineer: Tempo indeterminato, CCNL Metalmeccanico

*lingua in cui è possibile svolgere il colloquio* **ITA**  **ENG**
