

COMPANY PROFILE

Established in 1984, in Viareggio, Navionics®, a Garmin® Ltd. Brand, produces electronic charts for the leisure boating market.

We were born from a revolutionary idea: the world's first electronic chart display, or chartplotter. Now we use location services every day on our mobile devices, and maybe even take them for granted. But, think about it: how pioneering is that? This state of mind is what Navionics® is founded on and our focus for future goals.

We want to expand as the global leader in marine content and location-based services built on innovation derived from our lifestyle appreciation, digital expertise and crowdsourcing. Our cartography is available to boaters for use in GPS chartplotters, and within our app for Apple® and Android™ devices.

Our head office is based in Massarosa, Tuscany, a lovely area easily accessible to cities of art, beaches and mountains but Navionics also has offices in the U.S. in New Bedford, Massachusetts and Hyderabad, India.

Navionics at a glance

- Garmin® + Navionics®: a win for every user, the best of both worlds!
- First company using GPS for recreational purposes
- The world's largest cartography database which includes oceans, seas, rivers and more than 38,000 lakes
- A multinational company
- Team work across Italy, US and India
- People make the difference
- More than 360 talented and enthusiastic individuals contributing to the company's success.
