### Kyndryl Italia Innovation Services

#### IT Specialist

We are looking for profiles interested in undertaking a new stimulating job opportunity as **IT Specialist**. You'll design, build, manage and modernize our customer's IT Infrastructure, by planning, configuring, implementing and testing IT solutions.

As a focused, independent company, we're building on our foundation of excellence by creating systems in new ways. Bringing in the right partners, investing in our business, and working side-by-side with our customers to unlock potential.

Kyndryl is comprised of **six global practices**:

1. Applications, Data and AI;
2. Cloud;
3. Core Enterprise and zCloud;
4. Digital Workplace;
5. Network and Edge;
6. Security and Resiliency

This means that you could work and specialize on **different projects**, involving:

- Cloud
- Cyber Security & SOC
- Data & Automation
- Database Administration
- Operating System
- Middleware
- Network
- Mainframe
- Backup & Storage
- Workplace

At Kyndryl, we are committed to innovating and co-creating with a broad partner ecosystem to deliver transformational solutions for our customers' unique needs. Our **alliances** and **ecosystem of partners** across technology stacks includes a wide range of "as-a-service" technology providers, strategic advisors, independent software vendors and technology vendors.
