E-mail: ibrahim.3ali@hotmail.com

CURRENT POSITION

Freelancer

Technical consultant/designer in Digital Hardware Implementation	**2018–Present**

Assistant Professor

School of Engineering, Lebanese International University	**2018–Present**

EDUCATION

University of Genova, Genova, Italy & Lebanese University
Ph.D. in Electronic and Computer Engineering, Robotics and Telecommunications
& in Industrial Control with distinct (Very Honored)   **2016**
Thesis: "Architectures and Hardware Implementation of Embedded Electronic
Systems for Tactile Information Processing"

Lebanese University, Beirut, Lebanon & University of Technology of Compiegne (France)
Master 2 Research (M2R) in Industrial Control   **2009**
Thesis: "Electro Active Polymer IPMC and its Integration as Artificial Muscle in
the Myoelectric Hands"

Lebanese University, Beirut, Lebanon
Master 1 sciences in Physics, branch: Electronics   **2008**
Areas of concentration: Electronic circuits design, Microcontrollers, VHDL, Matlab

RELATED EXPERIENCE

Postdoc Researcher   **2016 – 2018**

Project: "Development of Embedded Electronic Systems for Artificial Skin to Provide
The Sense of Touch of Upper Limb Prostheses"

Digital Systems Designer   **2013 – 2017**

- FPGA implementation of Machine Learning algorithm for sensors data processing using VHDL.

- Designing parallel and cascaded architectures to meet real time constraints. Implementation of the interface electronic system between ADC converter and an FPGA for tactile sensors.

- Developing the data acquisition block of the system, the control unit and the computing one.

- The design of computing units that include: Matrix multiplication, multiply and accumulate units, Coordinate Rotational Digital Computer (CORDIC) unit for vector rotation and sine & cosine functions computation, Singular Value Decomposition (SVD), Square roots.

- Design optimization for real time operation and low power consumption. Some techniques such as approximate (inexact) computing has been used to implement approximate adders, approximate multipliers, and approximate CORDIC to reduce the power consumption.

Projects Manager **2011 – 2013**

In charge of research to improve the electronic systems, projects installation.

Projects Developer **2007 – 2010**

Develop electronic projects, designing PCB boards, programming Microcontrollers, technician.

INTERESTS, TECHNICAL SKILLS, AND HOBBIES

Interests

Digital Electronics, Digital Signal Processing, sensing systems, data processing, embedded systems for electronic skin, Embedded Machine Learning, Energy Efficient Embedded Computing, Approximate computing Techniques.
Social and scientific subjects, electronics evolution.

Technical Skills

Digital systems, Embedded Electronics.
Field Programmable Gate Array (FPGA), Hardware Description Language (VHDL, Verilog).
Digital Signal Processing DSP, Hardware implementation, Sensors interface.

Hobbies

Reading, Swimming, Football, Computer and Internet.

LANGUAGES

Arabic – Native language
English – good in speaking, read/write with good efficiency
French – good in speaking, reading and writing.
Italian – speak, read, and write with good efficiency

AWARDS

- *Silver Leaf Award* at the IEEE Prime 2016 for the paper "Towards The Integration of E-skin into Prosthetic Devices".
- *Bronze Leaf Award* at the IEEE NGCAS 2017 for the paper "Distributed Sensing and Stimulation Systems for Sense of Touch Restoration in Prosthetics"
- *Bronze Leaf Award* at the IEEE NGCAS 2017 for the paper "Energy Efficient System for Tactile Data Decoding Using an Ultra-Low Power Parallel Platform".

RESEARCH ACTIVITIES INVOLVEMENT

- IEEE and CASS member
- Organizing committee and Publication Chair of IEEE NGCAS 2017 the first New Generation of Circuits and System Conference.
- Technical Program Committee of IEEE NGCAS 2017 the first New Generation of Circuits and System Conference.
- Review Committee Member at IEEE ISCAS 2016 in Montreal, Canada.
- Special Session co-organizer and co-Chair, Emerging Trends in Embedded Perceptive Systems, IEEE ISCAS 2016 in Montreal, Canada.
- Special Session co-organizer and co-Chair, Issues and Trends Towards Resilient and Energy Efficient Embedded Electronic Systems, IEEE ICECS 2016, Monte Carlo, Monaco.
- Special Session co-organizer and co-Chair, Energy Efficient Autonomous Smart Sensory Systems, IEEE NGCAS 2017, Genova, Italy.
- Special Session co-organizer, Advances in Sensing and Embedded Computing for Personalized Wireless Healthcare Systems, IEEE ISCAS 2018, Florence, Italy.
- Review Committee Member RCM at IEEE ISCAS 2018 in Florence, Italy.
- Session Chair at IEEE ICECS 2018 in Bordeaux, France.
- Technical Program co-chair for the IEEE New Generation of Circuits and Systems NGCAS 2018, Malta.
- Young Professional Chair for IEEE ICECS 2019 conference held in Genova, Italy.
- Publication chair for IEEE AICAS 2020 conference which will be held in Genova, Italy
- Publication chair for IEEE ICECS 2020 conference which will be held in Glasgow, UK.

EDITORIAL/REVIEW ACTIVITY

- Reviews for various international journals such as IEEE transactions on Neural Network and Learning Systems (IEEE TNNLS), IEEE Sensors Journal, Journal of Circuits, Systems, and Computers (JCSC), IEEE transactions on Circuits and Systems (TCASI & TCASII), IEEE Access.
- Reviews for various international conferences such as IEEE ISCAS, IEEE ICECS, IEEE NGCAS, and IEEE PRIME.
- Corresponding Guest editor for a special issue of JOLPE - Journal of Low Power Electronics - published by American Scientific Publishers 2018.
- Managing Guest editor for a special issue of Integration, the VLSI Journal, published by ELSEVIER 2018.
- Corresponding Guest editor for a special issue of JOLPE - Journal of Low Power Electronics - to be published by American Scientific Publishers 2019.

TEACHING EXPERIENCE

Lebanese International University, Lebanon
Assistant Professor, School of Engineering   **2018–present**

University of Genova, Genova, Italy
Lab instructor – "Integrated Electronic Systems (IES)" course   **2015–2017**

Smart Brain Center (SBC) institute, Al Hadath, Lebanon
Teacher – "Physics and Mathematics" secondary level courses   **2009 –2012**

Al Rasoul al Azam institute, Beirut, Lebanon
Lecturer – "Physics" Secondary level course   **2008**
