## ● HONOURS AND AWARDS

---

### Being Positive - Comunicare Hiv - Università di Genova

---

Exposition

28/10/2019

#### International CAE conference

---

The Poster Awards, which recognize and reward the creative use of CAE technology around the world, are intended to bridge the gap between the academic and industrial worlds by providing a forum to connect innovative new young thinkers in engineering with industrial enterprises that have an ever-increasing need for these skills.

The "Poster Award" is an initiative to help disseminate and promote Simulation-based Engineering and Sciences and to bridge the gap between the academic and industrial worlds.

The Prize-Giving Ceremony will take place at the International CAE Conference and Exhibition, to be held in Vicenza, Italy, on October 28th and 29th 2019.

The international contest, now in its 8th year (2019), recognizes and rewards the application of CAE technologies to simulation or engineering problems or research, and requires these approaches to be creatively illustrated on posters. The purpose of the contest is twofold:

- to recognize excellence and innovation within academic projects
- to bridge the gap between the academic and the industrial worlds

This contest is open to students, graduates, researchers, and / or faculty members, such as professors, from Academic Institutes and Research Centers from around the world across all sectors.
