### **OTHER MANAGEMENT ACTIONS RELATED TO THE PUBLIC SECTOR:**

At the same time, and basically as a result of my complex work in the municipal sphere, especially in Ciutat Vella, I have been able to undertake other types of complex and interdisciplinary management studies and actions, which I list briefly:

#### **STRATEGIC STUDIES:**

##### **Technology:**

**-Mixed Committees Via Pública (ACEFAT, etc.):** in view of the immense task to be carried out in the integral renovation of services in the Historic Centre as a result of the execution of the various PERIs, the District Coordinator Xavier Casas asked me to join the Coordination Tables with the various Service Companies. These tables were the beginning of what would later be formalised with ACEFAT.

-Strategic study on the implementation of the **Pneumatic Rubbish Collection System** in the Historic Centre of Barcelona. Technology developed in collaboration with CENTRALSUG. Including the industrial design of the collection and ventilation buses in collaboration with the designer Ramon Benedito. Executed sets:

- plaça de la Vila de Madrid i c. Canuda
- Raval Sud (central de recollida pneumàtica Illa del Raval i entorn Raval)
- Santa Caterina: (Central de Recollida Pneumàtica Mercat de Santa Caterina i entorn barris de Sant Pere i de Santa Caterina).
- surroundings barri de la Ribera (c. Argenteria, passeig del Born, c. Antic de Sant Joan i entorns.

- **Comprehensive study of public lighting systems** in Ciutat Vella and proposal of new general definition criteria (Department of Projects Foment Ciutat Vella). Subsequently, a new projector model was developed, in collaboration with the company *SOCELEC*, which was implemented in various pedestrian areas of the centre.

-Integral **connectivity study of fibre optic networks** in the Ciutat Vella district (in collaboration with ALPI, Ciutat Vella Projects Department).

- Under the direction of the architect Vicente Guallart (together with Manuel Valdés, head of municipal infrastructures) I was responsible for the coordination and harmonisation of all the **technical plans** of all the areas linked to the municipal urban development projects. The work was basically managed by Jordi Santiago with my continuous collaboration and was included on the municipal website for consultation by any urban development project drafting team.

-Pla **Integral de Sostenibilitat Energètica del Castell de Montjuïc** (in collaboration with the Energy Agency, Imma Soldevilla).

##### **Via Pública:**

-study of a new **Plan de Vetlladors along Passeig Joan de Borbó** in Barceloneta (Toni García, Departament de Projectes Ciutat Vella)

-**Generic criteria for the implantation of vetlladors in the public space** of Ciutat Vella (Department of Ciutat Vella Projects).

-proposta de **señalització de senyalització d'aparcament per a motocicletes** a Ciutat Vella (Departament de Projectes Ciutat Vella)

-Collaboration with Mobility for the implementation of the new **BICING** in the Historic Centre: a study of the implementation at various points of the urban fabric of Ciutat Vella was carried out (in collaboration with the Ciutat Vella Projects department).

-Study of **criteria for the implementation of pneumatic rubbish collection bins** in Ciutat Vella (Toni García, Department of Ciutat Vella Projects).

-Collaboration with Via Pública for the implementation of the **new pedestrian signposting system** in the historic centre of Barcelona (collaboration with the Ciutat Vella Projects Department).

- **Barnacentre Sector signposting** project: drawn up in collaboration with the Barnacentre traders' association (Ciutat Vella Projects Department).

- **New information signposting plan for the Raval Nord Cultural Cluster** -avantprojecte-: collaboration with MACBA, CCCB, UB, Biblioteca de Catalunya, Fundació Blanquerna.

- **Public Areas:** As a result of the proposal developed by the FAD and implemented by the architect Àlex Jiménez, some of the winning projects of the competitions in the Ciutat Vella area were carried out - in different degrees of concreteness - such as:

- . Passatge Tallers 45.
- . c. d'en Roca.
- . c. Arc del Teatre.
- . c. Beat Simó.
- . c. Sant Antoni Abat.
- . pl. Brugada (monument Carmen Amaya)

#### **Patrimoni:**

-**Ciutat Vella Heritage Office:** in view of the importance of heritage in Ciutat Vella, I proposed the creation of a specific office to take care of private interventions in the area of Historic and Artistic Heritage. This office was created in 1989 with a specific technician linked to the processing of licences for private works and activities under my responsibility as Head of Projects.

--Development of the various **Chromatic Studies** of the façades of the Historic Centre of Barcelona in collaboration with the GABINET DEL COLOR (arqu. Joan Casadevall):

- Pla del Color Barceloneta.
- Pla del Color de la Rambla.
- Pla del Color de la Rambla del Raval.
- . conjunt Fossar de les Moreres.

In addition to the usual collaboration, we have coordinated with the Ciutat Vella Housing Office the chromatic studies of all the properties to be rehabilitated by the Office.

**Pla Barcino:** During the last term of office I was responsible, together with the archaeologist Carme Miró and the head of Heritage and Memory at the ICUB -Carles Vicente- for the various actions linked to the Pla Barcino (recovery of the city's Roman heritage). Actions:

- . Strategic Study of the Public Space linked to the monumental complex of the Roman Wall of Barcelona (with Josep Llinàs, architect).
- . Master Plan for the Roman Wall (currently being drawn up): planning of municipal and private actions linked to the Roman Wall (planning, management, documentation, urban development, restoration, signposting, regulations, etc.).
- . Aula Episcopal (recovery of a new area of the subsoil of Barcelona explaining the early Christian city).
- . Baixada de Viladecols (restoration of the remains of a Roman tower and its corresponding wall panels).
- . Historical documentation of the areas pending study of the Roman Wall.
- Domus Avinyó: recovery and museography of the Domus Romana of c. Avinyó 15 (with VORA arquitectura and STOA)

- **Pla de les Muralles Medievales** de Barcelona: following the experience in the context of the Monumental Complex of the Roman Wall and the imminent work on the most important remains of the Medieval Walls (Baluard de Sant Antoni and Baluard del Migdia), a parallel action to the previous one is being considered. For the time being, work has begun with the same teams as the Pla Barcino.

**-Strategic Plan for the Recovery of the Rec Comtal:**

Work commissioned by Hàbitat Urbà to architect Carles Enrich: collaboration and advice as an architect for the ICUB and subsequent management for its activation with the EUM and the Municipal Institute of Urban Landscape.

**-Documentation of the heritage affected by deconstruction as a result of the implementation of the various PERIs in Ciutat Vella:** arran de la perspectiva de desconstrucció d'un nombre molt important de finques en l'entorn del Raval, la Barceloneta i el sector Oriental de Ciutat Vella a causa de l'execució del Planejament previst vaig ser el promotor, amb el Museu d'Història de Barcelona, de la obligatorietat de documentació gràfica i fotogràfica de totes les finques a enderrocar. This enormous task has been carried out since 1990 and the Archaeology Service is the owner of all the work carried out.

-I am currently a member of the jury of the **European Heritage Award organised by AADIPA (2017)**.

**Urbanisme:**

**-Studies linked to the new Neighbourhood Plan law:**

- Pla de Barris **Barceloneta** (coordination dossier for the approval of the proposal)
- Pla de Barris **Raval Sud** (coordination dossier for the approval of the proposal)

**-Mapping Public and Private Facilities in the District of Ciutat Vella**

**-Plans de Mobilitat:**

In view of the complexity of mobility in the historic centre, we set up various strategies for mobility within the neighbourhoods of the centre. Specifically, apart from the general criteria that can be extended to the entire district of Ciutat Vella, we will coordinate the following mobility plans:

- genèric Raval
- Barri de la Ribera.
- Rambla del Raval
- Gòtic Nord
- Barri de Sant Pere.
- Conjunt central Barceloneta (pl. Poeta Boscà).
- C. Dels Àngels.
- Via Laietana (no executat).
- C. Comercial i Passeig de Picasso (not executed).

**-FECSA ENDESA** Agreements: as a result of the various major urban development operations to be carried out in the Historic Centre, I coordinated two framework agreements with the electricity operator ENDESA in order to promote the comprehensive renovation of networks in the affected areas. Specifically, we signed the following agreements:

- Raval operation: linked to the construction of the transformer substation in Terenci Moix sq., which will enable the complete renovation of the Raval Nord network.
- Santa Caterina and Ribera neighbourhoods remodelling operation: linked to the construction of the Santa Caterina Market and the new urban development operation of the Cambó Avenue/Pou de la Figuera Avenue Extension.

**- SPACES AND PROJECT COMMISSIONS:**

In the various recent legislatures I have been a member of the various commissions for the monitoring and validation of architectural projects, both those chaired by architect J.A. Acebillo -as the technical representative of Ciutat Vella- and those chaired by architect Vicente Gualart -as the technical representative of the ICUB-. However, in this last one I chaired a specific session dedicated to the multiple projects developed directly by me from the ICUB.
