

Nicholas Cartocci

PhD Student

July 25, 2024

Interests

Nicholas Cartocci's current interests include Biomedical Signals Processing, specifically for Fall Detection, Fall Prediction and Injury Prevention, and Artificial Intelligence (AI), particularly Machine Learning and Deep Learning.

Research Experiences

06/2022 -

Ongoing

XoLab, Advanced Robotics, Italian Institute of Technology (IIT). 

PhD Student in the research theme: "Data processing using ML techniques for fall detection and prediction".

Tutors: Dr. J. Ortiz and Prof. D.G. Caldwell

5-month fellow researcher in the project: "Machine Learning for Fall Detection and Prediction".

Supervisors: Dr. J. Ortiz and Dr. A.E. Gkikakis.

04/2020 -

05/2022

ISARLab, Department of Engineering, University of Perugia. 

1-year research assistant in the project: "Development and validation of algorithms for the perception, localization, navigation, control and security of electric autonomous vehicles".

1-year research assistant in the project: "Development of tools for the elaboration of time series and video streams with application to the precision farming"

2-month research contract for the project: "Models and algorithms for detection and classification of anomalies and faults in time series and signals".

Supervisor: Prof. M.L. Fravolini.

10/2018 -

03/2019

Benjamin M. Statler College of Engineering and Mineral Resources, West Virginia University. 

3-month scholarship for the research project: "Data-Driven Residuals and Bayesian Filtering for Robust Aircraft Sensor Fault Isolation applied to Tecnan P92 aircraft".

3-month scholarship for the internship project: "Implementation and comparison of data-based sensor fault isolation techniques for aircraft systems".

Supervisor: Prof. M.R. Napolitano.

Journal publications

2022

Cartocci N., Crocetti F., Costante G., Valigi P., Fravolini M. L., "Robust Multiple Fault Isolation Based on Partial-Orthogonality Criteria", International Journal of Control, Automation and Systems, 20, 2148–2158, DOI.

2022

Cartocci N., Napolitano M. R., Crocetti F., Costante G., Valigi P., Fravolini M. L., "Data-Driven Fault Diagnosis Techniques: Non-Linear Directional Residual vs. Machine-Learning-Based Methods", Sensors, 22(7), 2635, DOI.

2022

Cartocci N., Napolitano M. R., Costante G., Valigi P., Fravolini M. L., "Aircraft Robust Data-Driven Multiple Sensor Fault Diagnosis Based on Optimality Criteria", Mechanical Systems and Signal Processing, 170, DOI.

2021

Cartocci N., Fravolini M. L., Napolitano M. R., Costante G., "A Comprehensive Case Study of Data-Driven Methods for Robust Aircraft Sensor Fault Isolation", Sensors, 21(5), 1645, DOI.

Conference publications

- 2024 Pitzalis R. F., *Cartocci N.*, Di Natali C., Caldwell D.G., Berselli G., Ortiz J., "Development of a ML-Control Strategy for a Wrist Exoskeleton based on EMG and Force measurements with Sensor Strategy Optimisation", 2024 10th IEEE RAS/EMBS International Conference for Biomedical Robotics and Biomechatronics (BioRob), 2024, ACCEPTED, LINK.
- 2024 *Cartocci N.*, Gkikakis A.E., Caldwell D.G., Ortiz J., "Recognition of Physiological Patterns during Activities of Daily Living Using Wearable Biosignal Sensors", 2024 22nd Triennial Congress of the International Ergonomics Association (IEA), 2024, ACCEPTED, LINK.
- 2024 Pitzalis R. F., *Cartocci N.*, Di Natali C., Caldwell D.G., Berselli G., Ortiz J., "Ergonomic Assessment of Work Activities for an Industrial-oriented Wrist Exoskeleton", 2024 22nd Triennial Congress of the International Ergonomics Association (IEA), 2024, ACCEPTED, LINK.
- 2024 *Cartocci N.*, Pitzalis R. F., Ortiz J., Jaramillo J. M., Yucelen T., Fravolini M. L., "Directional thrust control of a powered wingsuit for assisted gliding", AIAA 2024-0754. AIAA Scitech 2024 Forum. January 2024, DOI.

Reviews

- Journal:** Aerospace, Automatica, Control Engineering Practice, Diagnostics, Electronics, Engineering Applications of Artificial Intelligence (EAAI), IEEE Robotics and Automation Letters (RA-L), IET Control Theory & Applications, Journal of Experimental & Theoretical Artificial Intelligence (JETAI), Mechanical Systems and Signal Processing (MSSP), Mathematics, NeuroSci.
- Conference:** 2024 IEEE International Conference on Automation Science and Engineering (CASE), 2023 International Conference on Artificial Intelligence of Things and Systems (AIoTSys), 2023 International Conference on Electrical, Computer, Communications and Mechatronics Engineering (ICEC-CME), 2023 Mediterranean Conference on Control and Automation (MED), 2023 IEEE International Conference on Robotics and Automation (ICRA), 2022 International Conference on Electrical, Computer, Communications and Mechatronics Engineering (ICECCME), 2022 European Control Conference (ECC), 2021 American Control Conference (ACC).

Appointments

- 2023-2024 Lecturer
Lecturer of the Basic Computer Science course at the University of Genoa Senior.
- 2023-2024 Practitioner
Teaching support for the master's course "Machine learning for automated driving" at the University of Genoa.
- 2020-2022 Subject Expert
Expert from the Scientific Disciplinary Area ING-INF/04 (Automation) to profit examination committees at the University of Perugia.

Projects

- 2024-2027 **Falling from Heights 2** [Link](#)
The project is focused on designing and developing innovative strategies and solutions to prevent accidents and protect workers who work at heights. It focuses on advances in wearable sensing and actuation technologies, including technologies to reduce the impact of falls and intelligent monitoring systems.
Sponsor: Italian Workers' compensation Authority (INAIL)
- 2022-2023 **Falling from Heights** [Link](#)
The project aims to design and develop novel strategies and solutions aimed at preventing accidents and protecting workers working at heights. The project focuses on advances in wearable sensing and actuation technologies, including technologies for falling impact reduction, intelligent monitoring, and new paradigms in immersive training for workers.
Sponsor: Italian Workers' compensation Authority (INAIL), project: EPTR0007
- 2022 **Digital Value Chain (DVC): Research and application of machine learning solutions for the digitization of retail spaces**
- 2022 **SEAL: Smart&safe Energy-aware Assisted Living, The Learning Meters Network** [Link](#)
The SEAL project aims to develop new knowledge, products and services to put domotic systems on the market that implement services aimed at safety and sustainability. SEAL is related to the Smart Cities initiative, which involves the integration of units that each operate intelligently.
Executive project: SCN_00398, social innovation projects: SIN_00968
- 2020-2021 **Agrobot: autonomous robots to support economic growth and environmental sustainability of Umbria's agriculture** [Link](#)
The AGROBOT project aims to realize and validate an autonomous robot to support innovative agricultural approaches on fields located in hilly areas belonging to small farms. It is based on state-of-the-art methods for perception, control and navigation.
Project funded by the Umbria Region PSR program 2014-2020.

Awards

- 2023 **"Advancing Technology for Humanity – Most Promising Researcher in Robotics and AI" award finalist** [Link](#)
The award was announced by the Fondazione Mondo Digitale and the Rome Campus Bio-Medico University.
- 2020 **"Renato Mariani" award participant**
The award was announced by the Italian Association of Electrical, Electronics, Automation, Information and Communication Technology (AEIT).
- 2017 **UniPG - Student contribution**
50% reduction of fees for the first year of the master's degree program.

Courses

- 2024 **Bumblekite machine learning summer school in health, care and biosciences** [Link](#)
ETH Zürich and University Hospital Balgrist, Switzerland.
- 2024 **Sciencepreneurship Summer School: Sustainability & AI** [Link](#)
EPFL Lausanne, Switzerland.
- 2021 **From Data to Decisions: the Scenario Approach (with Applications to Systems, Control and Machine Learning)** [Link](#)
EECI 2021 International Graduate School on Control
Instructors: Prof. M.C. Campi and Prof. S. Garatti.

Education

2022-...	PhD in Bioengineering and Robotics Advanced and Humanoid Robotics.	University of Genoa
2020	Professional title of Engineer Information Engineer.	MUR
2017-2019	Master's degree with vote 110/110 cum laude Computer Engineering and Robotics.	University of Perugia
2013-2016	Bachelor's degree with vote 107/110 Computer Science and Electronic Engineering.	University of Perugia
2007-2012	High school Specialization in Electronics, Information Technology and Telecommunications.	ITIS "Galileo Galilei" Arezzo

Thesis

Master	<i>Data-Driven Residuals and Bayesian Filtering for Robust Aircraft Fault Isolation</i> Supervisors: Prof. M. L. Fravolini & Prof. M. R. Napolitano. Examiner: Prof. A. Moschitta.	LINK
Bachelor	<i>Design and Assembly of a UAV below 300 grams with a fixed budget</i> Supervisor: Prof. P. Valigi.	LINK

Technological knowledge

Base	Computer Hardware, C++, R, Java, JavaScript, Adobe Photoshop, Apache Giraph, Apache Hadoop, Apache Spark, MySQL, NoSQL databases (Riak, MongoDB, Cassandra, Neo4j), Node-RED, OpenDayLight and OpenStack.
Medium	Linux OS, MacOS, Simulink, Robot Operating System (ROS), Programmable Logic Controller (PLC) languages, Python, PyTorch, and \LaTeX .
Advanced	MATLAB, Microsoft Office and Microsoft Windows.

Experiences

09/2023	Next Tech Social media manager for Next Tech
2020-2022	iCrewPlay.com COO of iCrewPlay with management and coordination responsibilities; PR Executive for iCrewPlay's Tech division with international PR tasks; Editor for iCrewPlay's Tech newsroom with over 200 articles and reviews.
2014-2020	Nital (iRobot), Canon, TomTom, Alcatel, Bayer Technical consultant in intelligent sensors, smart devices, computers, wearable technology, phones, and crop science.
2016-2020	Editanet S.r.l. Delegate for the supervision of public tenders for third parties.
2016-2017	Casio Technical consultant and demonstrator for Eastern Tuscany on projectors, smart cameras and high-quality cameras.
2012-2013	Sacchi Giuseppe S.p.A. - Arezzo branch Technical consultant and seller in the following areas: electrical distribution, lighting, electrical and electronic components, wiring, industrial automation and special systems (e.g., photovoltaic).

Languages

Italian	Native language.
English	Advanced.
French	Studied at middle school.
